

Global Business Travel Benefits Program

This program is part of our commitment to your physical and financial wellbeing — wherever you may work around the world.

What the program includes

Medical Assistance through Crisis 24 – Receive assistance in locating a health care provider, if you have a medical emergency, or require emergency medical evacuation services.

Travel Risk Information through Crisis24 – Find information for all travel locations (including higher risk environments) before you travel and obtain country reports or receive up-to-date alerts (including security incidents, travel disruption, health concerns and natural disasters).

Crisis24 is available to all AECOM employees through the [C24 Horizon website](#) or visit the Global Security & Resilience pages on [Ecosystem](#).

Business Travel Accident and Medical Expense Insurance through CHUBB – If you are seriously injured or die as the result of a covered accident while traveling on AECOM business outside of your home country, BTA insurance can pay benefits to you or your beneficiary.

If you are injured or sick while traveling for business outside of your country of permanent residence or permanent work assignment, this insurance can provide benefits for covered expenses incurred. This insurance does not replace your medical coverage — for example, if you are an employee on international assignment, your international health plan (e.g., Cigna) should be used first.

What you need to know

- All AECOM employees and consultants are eligible for the Business Travel Benefits Program regardless of where they work or live.
- Spouses and dependent children who are traveling with a covered employee are also eligible for business travel benefits.
- Coverage is automatic. You do not need to enroll or take any action.
- AECOM pays the full cost, so you pay nothing.
- If you have questions about the Global Business Travel Benefits Program, please submit a ticket in Employee Center.
